

WELCOME TO THE ORCHARD NURSERY

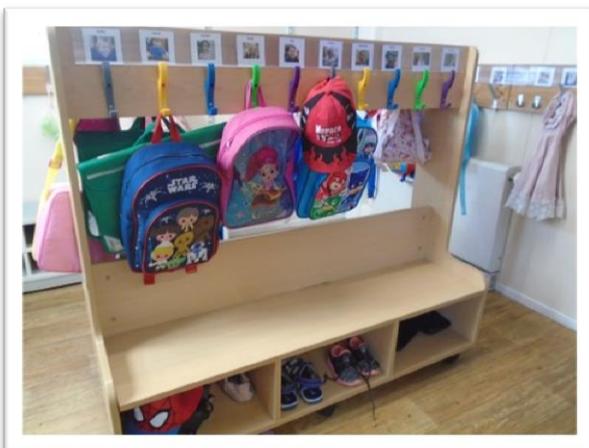

The first few weeks when your child is settling into the nursery is a time of crucial importance to their later happiness in the setting. All children are individuals and while some children will adjust fairly easily to the new environment and new routines, others will take longer to feel comfortable and secure.

This booklet is designed to help familiarise the children with areas of the nursery and toys and equipment they may wish to play with that you can talk to your child about before they start at the setting.
